

China Airport Operations Training Program

for Emergency Preparedness and Response,
and Smart and Efficient Airports

SEPTEMBER 9–21, 2018 • WASHINGTON, D.C. AND DALLAS, TX

The **U.S. Trade and Development Agency** is hosting a **China Airport Operations Training Program** for senior airport officials from the Airports Division of the Civil Aviation Administration of China (CAAC) and from local airports. The goal is to familiarize the delegation with U.S. technologies and solutions related to emergency preparedness and response, and smart and efficient airports. As part of the visit, USTDA is hosting a Business Roundtable for U.S. companies.

BUSINESS ROUNDTABLE

Thursday, September 13, 2018 • 9:30 AM – 2:00 PM • Grand Hyatt Hotel • Washington D.C.

Join the Roundtable to:

- Learn about upcoming project opportunities in China
- Connect with key decision-makers
- Form new partnerships

Topics for Discussion:

- Cutting-edge U.S. technologies that can support China's aviation goals
- China's plans for national airport expansion
- CAACs plans for new Emergency Response Centers

Delegates Represent:

- Civil Aviation Administration of China (CAAC)
- Managers of safety and operations departments at Chinese airports

Background

China is planning to invest \$72 billion into airport expansion and construction, representing significant commercial opportunities for U.S. airport equipment and service suppliers. CAAC is also considering developing airport emergency rescue control centers throughout southwest China. **Potential exports include advanced communications systems, fire trucks, helicopters, and architectural services.** In 2017, CAAC released a new "Green Terminal Standard," requiring sustainable practices in the construction and operations of new terminals at airports. The standard includes improving energy, water and land conservation efforts during construction. **Potential exports include improved airline and airport management systems, hybrid vehicles at airports, and architectural services.**
